Compilation Part Notice

ADP018634

TITLE: Metastable, Mechanically Alloyed and Nanocrystalline Materials

DISTRIBUTION: Approved for public release, distribution unlimited

Availability: Document partially illegible.

This paper is part of the following report:

TITLE: International Conference on Processing and Manufacturing of  
Advanced Materials [THERMEC'2003] Part 4

To order the complete compilation report, use: ADA431099

The component part is provided here to allow users access to individually authored sections of proceedings, annals, symposia, etc. However, the component should be considered within the context of the overall compilation report and not as a stand-alone technical report.

The following component part numbers comprise the compilation report:

ADP018549 thru ADP018715

## **Metastable, Mechanically Alloyed and Nanocrystalline Materials**

**ISMANAM 2002**

**Eds. Jung-Ho Ahn and Yoo-Dong Hahn**

ISBN 0-87849-916-4

Publication Date: May 2003

798 pages, paperback, €265.00/US\$265.00

This book comprises the proceedings of the 9th International Symposium on Metastable, Mechanically Alloyed and Nanocrystalline Materials (ISMANAM), which was held in Seoul, South Korea, from the 8th to the 12th September 2002. The 127 selected papers, from over 28 countries, which are presented here cover recent scientific discoveries in fundamental research as well as novel engineering applications in the fields of metastable and nanocrystalline materials. Many important issues concerning bulk metallic glasses, bulk nanocrystalline materials, mechanical alloying and mechanochemistry are discussed.

This latest addition to the invaluable conference series will therefore be essential reading for anyone wishing to keep up with the progress made in these rapidly advancing subjects.

Detailed information on this title – including the full table of contents – is available on the internet at <http://www.ttp.net> or through TTP's E-Mail Preview Service.
